

Tech rider Under Red Skies:

Space requirements:

1 table minimum 80 x 120 cm, height 90 cm.

If possible, I prefer standing on the floor together with people when I play, instead of being on a stage.

Audio outputs:

2 x jack 6,3 mm cables for L/R.

I can provide output as phono if needed.

Let me know in advance.

Power:

I bring my own extension cords, but need access to electricity at the table for at least one plug.

Monitor sound:

2 monitors/wedges for stereo mix.

If it's possible to stand out on the floor, I will use FOH as monitors.

Merchandise:

If it's possible to sell Merch, let me know in advance how much space I can take up.

If you have any questions, feel free to reach out to me:
